

## NATURE TOURS

Lake Tarjannevesi with over one hundred islands offers ideal settings for the paddling. One of the biggest islands called Siberia was earlier inhabited and still some fishermen live there throughout the year. By paddling you can watch the birds, for example loons, very close. Our kayaks are firm and good for beginners, too.

### Paddling

#### Round Siberia

At 9.30 breakfast in the pavilion or in the old traditional living room of Peltomaa

10.00 paddling starts
